SKATEBOARD CO.

# Artist Series

Sector 9 is proud to announce our latest Artist Series featuring renowned photographer Ray Collins. Capturing the fleeting moments of a wave's journey to dissipation, Ray feels more at home floating in saltwater with his camera than anywhere on land. Freezing the ephemeral relationship between water and light is what drives and inspires him to clamber out of bed in the dark each morning to celebrate the sun rising over the sea. We've presented Ray's work in a series of three boards capturing both the dark and light sides of ocean life. These boards look so good, you'll almost feel bad riding them.
